

FIVE ARE NOW DRY

Michigan Counties That Have Voted for Prohibition.

NOWHISKY THEIR WATCHWORD

Van Buren Took the Lead, Others Have Followed—It Was a Light Vote in Three Counties Monday.

Detroit, March 1.—Local option elections were held in three Michigan counties yesterday—Hillsdale, Branch and Eaton. Owing to the disagreeable weather, and perhaps also to a lack of interest in some sections, a very light vote was polled in all three counties. The indications, however, are that each of the three has pronounced in favor of the prohibition of the liquor traffic, the estimated majorities ranging from a few hundred in Branch to nearly 2000 in Hillsdale. The bad condition of the roads makes it difficult to obtain the exact figures from the outlying townships.

Hillsdale county stands next to Van Buren in the strength of its prohibition sentiment and is a former local option election held under the unconstitutional law gave 2,900 majority against the liquor traffic. Every ward but one of the county went "dry" in the present election, the "dry" majority in the city being 88. In Branch, Coldwater village gave a majority of 57 against prohibition, the township, however, declaring in favor of it by 79 majority. In the Eaton county election, Charlevoix cast 449 in favor of prohibition and 104 against it, and the prospects are that the "dry" majority in the county will reach 2,000.

The five counties which have up to date declared in favor of local option are Van Buren, Gratiot, Hillsdale, Branch and Eaton.

EXTENSION OF BOAT LINES.

St. Joseph Awake to the Possibilities of Its Lake Port.

St. Joseph, Mich., March 1.—The managers of the St. Joseph & Lake Michigan Transportation company have let a contract for dockage and warehouses in Milwaukee, which will be completed by March 25. It has been decided to establish two lines of freight and passenger boats—one to run to Milwaukee and the other to Chicago—with St. Joseph as the home port. Two vessels will be put on each route—the Lora and Minnie M. on the Milwaukee route and the Soc City and Ossifrage on the Chicago route.

All the boats have been thoroughly overhauled, furnished with electric lights and fitted out with the best of machinery. From the present outlook there will be an immense amount of freight to handle over this line the coming season. In Chicago, the steamers of this line will use the Lepold & Austrian dock, near the Rush street bridge.

Supreme Court.

LANSING, March 1.—Nearly the entire day was consumed in the disposition of the western docket. Orders to show cause were granted in Lapham vs. Reilly, Wayne circuit judge; Henderson vs. Lewis Darling, suspended; and denied in Walsen vs. Hillsdale, circuit judge, and Belknap vs. Board of Supervisors of Arenac county. The court declines to pass upon questions of fraud on mandamus proceedings. In Steele vs. German Insurance company motion to set aside affirmation judgment denied. Hearings were had upon applications for mandamus in Eyke vs. Herman O. Lange, cashier Merchants' National Bank of Muskegon; Corey vs. Lauer, circuit judge; Royal et al. vs. Brevoort, circuit judge; Ayers vs. Gartner, circuit judge; Stone vs. Newaygo, circuit judge; Scenck vs. St. Clair, probate judge.

Cases heard: 102, Silas W. Towle vs. The Ionia, Eaton and Barry Farmers' Mutual Fire Insurance company; partially argued. Wednesday's call: 102, 42, 106, 106, 47, 75, 113, 119. Harry Douglas of Grand Rapids, a Canadian attorney formerly of Chatham, Ont., but now of Grand Rapids, was by order of the court admitted to practice in all the courts of Michigan. Attorney George W. Thompson of Grand Rapids was in attendance today.

New Station at the Capital.

LANSING, March 1.—The D., L. & N. Railroad company announces that it will soon erect a large and commodious freight house here to accommodate their increasing traffic. The common council last night adopted a resolution mildly rebuking the Michigan Central and the Chicago and Grand Trunk railroads for the uncommodious and unsightly depot structures here, and suggesting that, while at the time of their erection they fully met the requirements of the city, they had long since ceased to be ornamental or sufficient for public demands, and the hope was expressed that the companies would not much longer be unmindful of that fact.

Railroad Gates Ordered.

LANSING, March 1.—Railroad Commissioner Whitman today issued the order of the state crossing board to the Manistee & Grand Rapids railroad to erect and maintain safety gates at its grade crossings of the G. R. & I. and the Manistee & Luther railroads in Lake county, and reserved the right to order interlockers at any time in the future that the traffic should demand.

We do not know why Scott's Emulsion of cod-liver oil is so useful in those simple but varied conditions which you know as "having a cough." We cannot explain it: we only know the fact from experience.

It may be due to the combination of tonic effects of cod-liver oil and the hypophosphites; it may be partly due to the glycerine. There are many effects in medical practice the causes of which appear to be plain, but how those causes produce those effects we do not know at all.
